Guide to the Student Registration/ Personal Needs Profile (SR/PNP) Process for the Spring 2022 RICAS Tests

Updated November 2021

Contact Information and Resources

Test Administration Information and Online Services

RICAS Service Center: Contact the RICAS Service Center with questions on the RICAS Resource Center website, PearsonAccess^{next}, passwords, and questions about the SR/PNP.

Telephone: 855-222-8936

Monday–Friday; 7:00 a.m. – 5:00 p.m.

Email: ricasservicecenter@cognia.org

Fax: 603-749-5108

RICAS Resource Center: ricas.pearsonsupport.com

Use this site to access PearsonAccess^{next} to submit the SR/PNP. Training modules, manuals, and other materials to support test administration can also be found here.

RICAS Policy Information

RIDE: Office of Instruction, Assessment, and Curriculum: Contact RIDE with any questions on policy or accommodations. Questions regarding student registration data should be directed to the district's data manager.

Web: www.ride.ri.gov/ricas

Email: assessment@ride.ri.gov

Telephone: 401-222-8413

Field Definitions	9

I. Introduction

The Student Registration/Personal Needs Profile (SR/PNP) is a collection of student-level data that includes student demographic data, test registration information, and information on selected accessibility features and/or accommodations that a student will use during testing.

The purpose of this document is to provide schools and districts the information needed to complete the initial SR/PNP process as well as update SR/PNP information when necessary. This document provides instructions for the spring 2022 RICAS test administrations, followed by field definitions to be used as a reference when completing students' PNP information. This document is intended to supplement the training modules, training webinars, and other manuals (see the [RICAS Resource Center](#) for the modules and the [Test Administration Manuals](#)).

The accuracy of the SR/PNP is important because it provides a record of certain accessibility features and accommodations used by students. In addition, for computer-based testing (CBT), the SR/PNP determines the test form that students will take (e.g., text-to-speech); for paper-based testing (PBT), it provides the basis for the initial shipment of test materials to schools (e.g., Student ID Labels, test booklets, answer booklets, large-print booklets). The SR/PNP process is also the basis for schools' orders for test administration manuals.

The general process for the SR/PNP is as follows:

1. RIDE will complete the initial student registration import. Nightly feeds from RIDE to PAN will keep student registrations current with the enrollment census, LEP census, and special education census student information submitted and maintained by districts.

Note: *Schools/districts will not be able to make updates to student demographic data or enrollment information via import or manually in PAN. All demographic or enrollment information updates take place through district transfers to RIDE.*

2. Schools/districts will complete a student registration export.
3. Schools/districts will update the file with students' accommodations and accessibility features and import this file back into PAN (repeating as needed).

Note: Accommodations that require a special test form — text-to-speech, compatible assistive technology, screen reader, and Spanish — must be assigned to students **before testing** in order for the student to receive the correct test. Updates to these special test forms cannot be made in PAN after a student has begun testing. Selected accommodations and accessibility features must be up to date in the SR/PNP for students by the end of each test administration window in order for RIDE to have current data for the purposes of reporting results, including Parent/Guardian Reports, as well as providing information for the next administration.

Update eRIDE with any changes to student information

Changes to student demographic information must be made in your district's Student Information System (SIS). The student information contained in the SIS is electronically submitted to RIDE either through a file transfer or other type of feed. RIDE will use that information to populate PAN. This information will be displayed in Columns A-J of the SR/PNP File and cannot be changed through the SR/PNP import process. These columns and the information in them need to remain in the file as is, or else the records will not transfer into PAN and SR/PNP information will not be recorded.

SR/PNP for Students Who Transfer

Due to the nightly feed from RIDE, the enrollment transfer functionality in PAN is not typically needed. Students who transfer will be registered in their new school via the nightly feed once their enrollment data has been sent by their new district/school and removed from the prior district/school. Any SR/PNP settings will not be transferred from the prior school, and so that process will need to be completed for the student in the new school prior to their starting testing, including the ordering of any paper accommodations materials if the transfer occurred after the initial SR/PNP window has closed. A testing record for the student will remain in PAN with the original school. RIDE recommends that, for any content area(s) in which the student has not already tested, the student be moved to a new session that isn't started so all untested transferred students can be easily located.

II. Steps for Completing the SR/PNP with Accommodations and Accessibility Features Information

The table below describes when to use each of the options for updating the SR/PNP:

Options for updating the SR/PNP:	When would you use this option?
Option 1: SR/PNP file export and import	when updating a large number of student records
Option 2: PAN user interface	when updating approximately 10 or fewer records

Schools should follow the instructions below to complete the SR/PNP upload of student information into PAN.

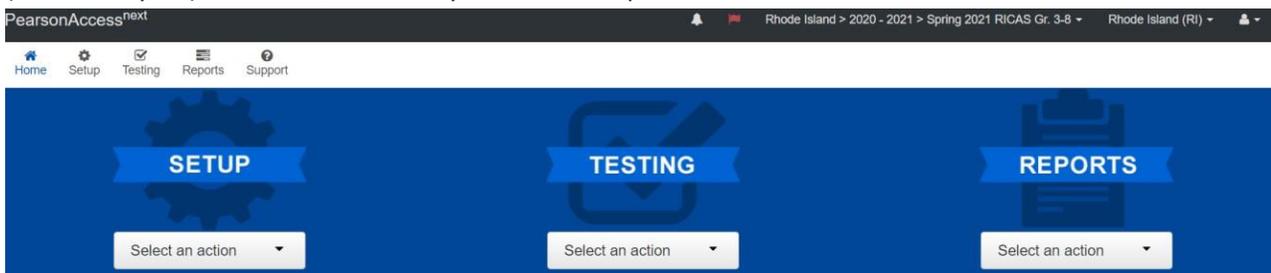

Option 1: File Export and Import

Export the school's file from PAN

1. [Sign-in to the operational/testing \(blue\) PAN site.](#)

Please note: In preparation for testing, only make changes in the testing (blue) site, not the training (brown) site. None of the changes made in the training (brown) site will carry over into the testing (blue) site.

2. Select the appropriate test administration from the dropdown menu located near the top right of the homepage (under the year) for the SR/PNP data you want to import.

3. Click **Setup** and select **Import/Export Data**.
4. In the **Select Tasks** dropdown, select **Import/Export Data**. Click **Start**.
5. In the **Type** dropdown, select **Student Registration Export**.

6. Select **Process**.
7. Refresh your screen until the process has completed. Then click **Download File**.
8. Save the file in a location that you can find easily (e.g., your computer’s hard drive).

Update Test Mode, Accessibility Features, and Accommodations

1. Change Test Mode to Paper for students testing with a paper accommodation (e.g., standard, large print, braille).
2. Enter accessibility features or accommodations in the designated columns. Use the field definitions in Part IV of this document.
3. After session lists have been finalized, test coordinators may use Column M of the SR/PNP file to create PAN sessions for CBT testing and add students to each of those sessions.

Note: *Once students have been added to a PAN Session, the SR/PNP cannot be used to move students from one PAN Session to another.* See the “[Managing Sessions](#)” training module on the RICAS Resource Center for information about how to move students between sessions. See the field definitions Column M below, “Session Name,” for recommended naming conventions.

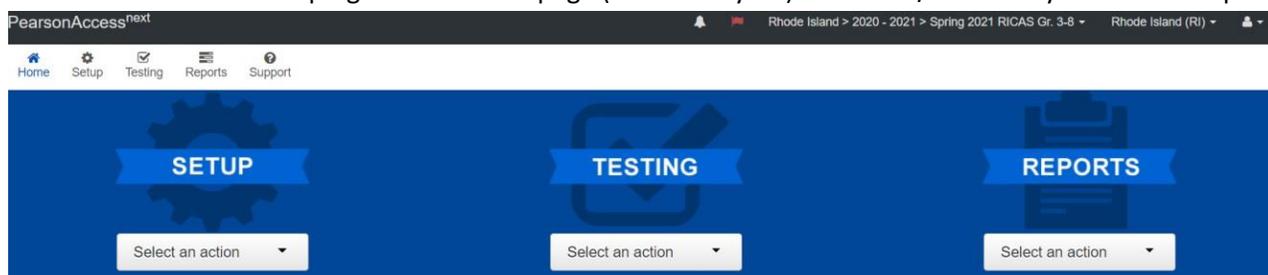

Note: PAN Sessions are grade and subject specific.

4. Save the file as a .CSV file.

Note for Apple users: Prior to saving, verify that the Date of Birth field (column I) is correctly formatted to show all four digits of the birth year. If not, please refer to the directions shown in column I in the table in Part IV to update.

Import the file into PAN

1. [Sign-in to the operational \(blue\) PAN site.](#)
2. Select the appropriate test administration year (e.g., 2021-2022 > Spring 2022 RICAS Gr 3-8) from the dropdown menu located near the top right of the homepage (under the year) for the SR/PNP data you want to import.

3. Click **Setup** and select **Import/Export Data**.
4. In the **Select Tasks** dropdown, select **Import/Export Data**. Click **Start**.
5. In the **Type** dropdown, select **Student Registration Import**.

Note: Ignore the checkbox for “Update demographic data only” (see the image below). Since demographic data can only be updated through the nightly feed, contact your district data manager or district testing coordinator to update student information. If this checkbox is selected, CBT tests will **not** be created for students and PBT tests will **not** be sent for students.

[Update demographic data only.](#)

6. Choose the .CSV file you had previously saved and select **Process**.

Note: PAN will only allow .CSV files to be imported. Files can be saved in another format (e.g., .xlsx) while working in them, but they must be changed back to .CSV prior to importing.

Note: Information in columns A-J is updated through the nightly feed process and cannot be changed with an import. These columns and the information in them need to remain in the file as is, or else the records will not transfer into PAN and SR/PNP information will not be recorded. Only information in column K (Test Mode) and beyond can be changed.

Confirm that all records have been successfully imported

1. The **View File Details** screen will appear. Refresh the screen by selecting the  icon (at the top).
2. When the file has completed processing, a green box with the message **Complete** or a red box with the message **Complete with issues** will appear on the screen. Two messages will also appear: the number of **successful records**, and the number of **error records**, if any.
3. If there were errors in processing the file, messages will appear at the bottom of the screen. Error messages will indicate the specific field(s) that caused the error as well as information on how to correct it. The record number listed will match the row of the .CSV file that caused the error. A sample screen is shown below:

Errors

[Download Records in Error](#) ⓘ

[Download Error Messages](#) ⓘ

1 Results Displaying 25 ▾

Record Number	Error Record Number	Message
2	2	Large Print Test Edition is only valid when the Test Format is "P" for Paper.

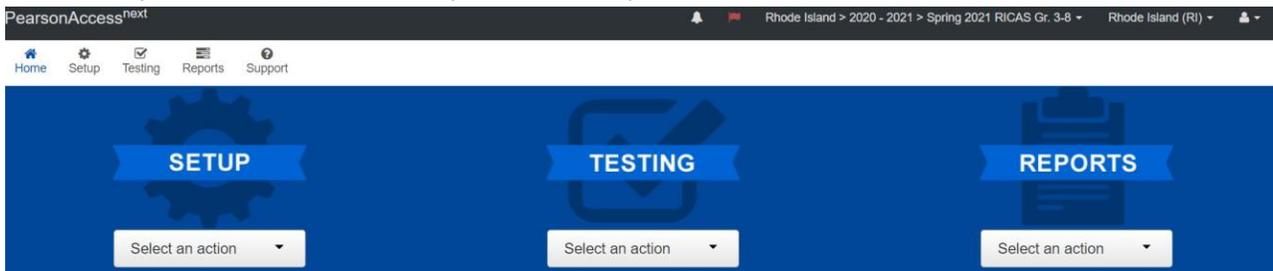

4. Correct the rows that had an error and repeat the steps above until all records import successfully. You may reuse the initial import file, leave the records without errors in the file, and correct only the records with errors. When re-importing this file, PearsonAccess^{next} will treat the records without errors as updates, even if no values changed. This will not cause any issues.

Note: A list of common error codes and solutions can be found at the end of this document.

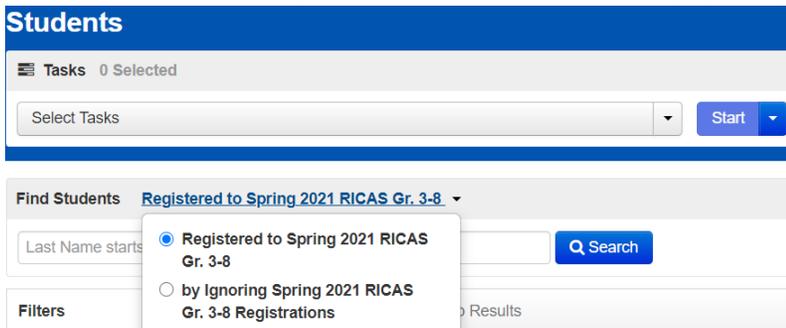

Option 2: PAN User Interface

Manually update an existing student record

1. [Sign-in to PAN](#).
2. Select the appropriate test administration from the dropdown menu located near the top right of the homepage (under the year) for the SR/PNP data you want to import.

3. Click **Setup** and select **Students**.
4. Search for the student record by the student's last name or SASID. If you are unable to locate your student, change the drop down from "Registered to [admin name]" to "by Ignoring [admin name]".

The screenshot shows the 'Students' management interface. At the top, there is a blue header with the word 'Students'. Below it, a 'Tasks' section shows '0 Selected' and a 'Select Tasks' dropdown menu with a 'Start' button. The main area is titled 'Find Students' and features a dropdown menu currently set to 'Registered to Spring 2021 RICAS Gr. 3-8'. A search input field is labeled 'Last Name starts with' and contains a search icon and the text 'Search'. Below the search field, there are two radio button options: 'Registered to Spring 2021 RICAS Gr. 3-8' (which is selected) and 'by Ignoring Spring 2021 RICAS Gr. 3-8 Registrations'. A 'Filters' section is partially visible on the left, and a 'Results' section is partially visible on the right.

5. Click the checkbox next to the student's name.
6. From the **Select Tasks** dropdown, select **Manage Student Tests**.
7. Click **Start**. Update the student information as needed.
8. Click **Save**.

Note: Student demographic data (**Create/Edit Students** page and **Register Students** page) is updated through the nightly feed process and cannot be changed in the User Interface. Only student test information (**Manage Student Tests** page) can be updated.

III. Field Definitions

The following pages contain a table showing the SR/PNP fields and definitions, as well as notes and validations (e.g., if steps are not followed, the error messages that will appear), and the expected value for each column.

The table includes the following sections:

1. Student Registration/Personal Needs Profile
2. Universal Accessibility Features
3. Accommodations

Note: Information in columns A-J is updated through the nightly feed process and cannot be changed with an import. These columns and the information in them need to remain in the file as is. *Only information in column K (Test Mode) and beyond can be changed.*

Field Definitions

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
A	District Code	N	6	The Testing District responsible for administering the test to a student	Non-public schools that do not have a parent organization should leave this field blank.	Part of Nightly Feed, do not edit or remove.
B	School Code	Y	6	The Testing School responsible for administering the test to a student	If a school code does not already exist in PAN, an error message will appear.	Part of Nightly Feed, do not edit or remove.
C	SASID	Y	10	A unique numeric code given to each Rhode Island publicly funded student If you do not have a student's SASID, contact your district data manager to obtain one.	SASID must be 10-digits beginning with "10..."	Part of Nightly Feed, do not edit or remove.
D	Student Grade	Y	2	Student's grade, as listed in most recent Enrollment Census (eRIDE)		Part of Nightly Feed, do not edit or remove.
E	Last Name	Y	25	The student's full legal last name that is borne in common by members of the family		Part of Nightly Feed, do not edit or remove.
F	First Name	Y	25	The student's full legal first name that was given at birth, baptism, or through legal change		Part of Nightly Feed, do not edit or remove.
G	Middle Initial	N	1	The initial of the full middle name given to the student at birth, baptism, or through legal change		Part of Nightly Feed, do not edit or remove.
H	Gender	N	1	Gender of the student	M = Male F = Female N = Non-Binary	Part of Nightly Feed, do not edit or remove.
I	Date of Birth	Y	10	The year, month, and day on which the student was born Note for Apple users: .CSV files on a Mac will remove the first two digits on the birth year, and an error message will appear. Use the following steps to update the formatting. 1. Select column I in the file and right-click (secondary click). 2. Select Format Cells from the menu. 3. Select the Custom option from the list. 4. In the Type text box, remove the text and enter "mm/dd/yyyy." 5. Click OK .		Part of Nightly Feed, do not edit or remove.

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
J	Test Code	Y	5	Identifier assigned to the test name	ELA03 = Grade 3 ELA ELA04 = Grade 4 ELA ELA05 = Grade 5 ELA ELA06 = Grade 6 ELA ELA07 = Grade 7 ELA ELA08 = Grade 8 ELA MAT03 = Grade 3 Mathematics MAT04 = Grade 4 Mathematics MAT05 = Grade 5 Mathematics MAT06 = Grade 6 Mathematics MAT07 = Grade 7 Mathematics MAT08 = Grade 8 Mathematics	Part of Nightly Feed, do not edit or remove.
K	Test Format	Y	1	Format of the test Note: All schools assessing Rhode Island students are required to administer the tests Online. The paper test format is an accommodation for students with disabilities who have this as an accommodation in their IEP or 504 Plan. Note: The nightly feed process will automatically register students for online tests. If students are changed to paper tests, the nightly feed will not overwrite that change.		P = Paper O = Online
L	Blank Field			Not applicable		

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
M	Session Name	N	50	<p>For CBT only</p> <p>When creating PAN Sessions, RIDE recommends that schools use a naming convention that will help test administrators quickly and easily find the test they are administering. It is suggested that PAN Session names include the following: test administrator name, testing location, grade, and subject area test. (for example, 6 MATH SAMPSON 205)</p> <p>Note: Read-Aloud and Human Signer Sessions in PAN must be set up separately from other PAN Sessions. See Columns Y– AB for more information.</p>	<p>Not applicable for PBT</p> <p>For CBT: If this field is populated in the initial import, a PAN Session will automatically be created with the name entered in this field in PAN.</p> <p>Students who share the same PAN Session name will also be automatically placed into that Session.</p> <p>Note: If a student’s test has already been added to a PAN Session, it cannot be moved by changing this field and reimporting the file. Instead, remove the student’s test from the PAN Session and then reimport the file with this field populated.</p>	<p>A-Z a-z 0-9 - (Hyphen) . (Period) ' (Standard Apostrophe) Embedded Spaces Blank</p>
N	Blank Field			Not applicable		
O	Blank Field			Not applicable		
P	Blank Field			Not applicable		
Q	Cognia Organization ID	N	10	Schools and districts should ignore this field when importing the file into the system (i.e., leave this field blank). When exported, this field will be populated with the Cognia organization ID.		
R	Alternate Cursor/Mouse Pointer	N	3	<p>For CBT Only</p> <p>Select an enlarged cursor/mouse size with or without a different color. Student must log out of the test to charge the selected cursor/mouse.</p>	<p>If expected value equals “M,” “L,” “XL,” “XLB,” “XLG,” or “XLY” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Test format must be “O” 	<p>M = Medium L = Large XL = Extra Large XLB = Extra Large Black XLG = Extra Large Green XLY = Extra Large Yellow Blank</p>

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
S	Alternative Background and Font Color (Color Contrast)	N	2	<p>For CBT only</p> <p>Selects an alternative color combination for the text (font color) and background</p> <p>If selected, student may change the alternative color combination during testing.</p>	<p>If expected value equals “Y” or “01” – “06,” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Test format must be “O” • Screen Reader must be left blank • Compatible Assistive Technology must be left blank • Typed Responses must be left blank • Large Print Test Edition must be left blank • Braille Test Edition must be left blank 	<p>Y = 01 = Black on Cream 02 = Black on Light Blue 03 = Black on Light Magenta 04 = White on Black 05 = Yellow on Blue 06 = Dark Gray on Pale Green Blank</p>
T	Answer Masking	N	1	<p>For CBT only</p> <p>Response options (answer choices) are not visible; student clicks to reveal each response option</p>	<p>If expected value equals “Y,” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Test format must be “O” • Screen Reader must be left blank • Compatible Assistive Technology must be left blank • Typed Responses must be left blank • Large Print Test Edition must be left blank • Braille Test Edition must be left blank 	<p>Y = Yes Blank</p>
U	Large Print Test Edition	N	1	<p>For PBT only</p> <p>A large-print edition test booklet and answer booklet are provided with printed text in approximately 18-point font. If the student uses the Large Print answer booklet, then responses must be transcribed by a test administrator into the student’s standard answer booklet.</p> <p>Large Print PBT edition is available in Spanish for the mathematics test only.</p>	<p>If expected value equals “Y,” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Test format must be “P” • Alternate Cursor/Mouse-Pointer must be left blank • Alternate Background and Font Color must be left blank • Answer Masking must be left blank • Screen Reader Edition must be left blank • Compatible Assistive Technology must be left blank • Braille Test Edition must be left blank • Text-to-Speech must be left blank • Web Extension must be left blank 	<p>Y = Yes Blank</p>

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
V	Screen Reader Edition	N	1	<p>For CBT only</p> <p>Screen reader-enabled edition of computer-based test for a student who is blind</p> <p>Screen Reader assistive technology application (e.g., Jaws, NVDA) is used for browser navigation and to deliver a computer-based test tagged to support Screen Reader use.</p> <p>Generally used in conjunction with a Refreshable Braille display or hard-copy Braille test</p> <p>Note: “Screen Reader Edition” is different from “Compatible Assistive Technology,” “Text-to-Speech,” or “Web Extension” test forms.</p> <p>If Spell-checker accommodation is needed, the student must use a spell-checking program on a second computer.</p> <p>If selecting “Screen Reader Edition,” students will automatically receive a Braille hard-copy test for Mathematics. Students will receive a Braille hard-copy test for ELA only if graphics are included in the test.</p>	<p>If expected value equals “Y,” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Test format must be “O” • Alternative Background and Font Color must be left blank • Answer Masking must be left blank • Large Print Test Edition must be left blank • Compatible Assistive Technology must be left blank • Braille Test Edition must be left blank • Human Read-Aloud as a Standard/Special Access Accommodation must be left blank • Human Signer as a Standard/Special Access Accommodation must be left blank • Text-to-Speech must be left blank • Typed Responses must be left blank • Spell-Checker must be left blank • Web Extensions must be left blank • Spanish Edition must be left blank 	Y = Yes Blank

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
W	Compatible Assistive Technology	N	1	<p>For CBT only</p> <p>Select Compatible Assistive Technology (AT) to allow activation of external software or hardware that is compatible (e.g., Dragon Naturally Speaking, ZoomText). For more information on how to determine compatibility of software or devices, see the Assistive Technology Guidelines for RICAS.</p> <p>Compatible Assistive Technology is intended for non-screen reader AT only. Select “screen reader” instead, if used by a student with a visual disability.</p> <p>Covers accommodation codes: (A10.2, SA6, EL4.2 or approved Unique Accommodation)</p>	<p>Must obtain DESE approval prior to testing for AT applications</p> <p>If expected value equals “Y,” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Test format must be “O” • Alternative Background and Font Color must be left blank • Answer Masking must be left blank • Large Print Test Edition must be left blank • Screen Reader Edition must be left blank • Braille Test Edition must be left blank • Human Read-Aloud as a Standard/Special Access Accommodation must be left blank • Human Signer as a Standard/Special Access Accommodation must be left blank • Text-to-Speech must be left blank • Typed Responses must be left blank • Spell-Checker must be left blank • Web Extensions must be left blank • Spanish Edition must be left blank 	Y = Yes Blank

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
X	Braille Test Edition	N	1	<p>For PBT only</p> <p>Hard-copy Braille test (text and graphics) for student who is blind</p> <p>Note: All Braille tests will be available in Unified English Braille.</p>	<p>If expected value equals “Y,” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Test format must be “P” • Alternate Cursor/Mouse-Pointer must be left blank • Alternate Background and Font Color must be left blank • Answer Masking must be left blank • Large Print Test Edition must be left blank • Screen Reader Edition must be left blank • Compatible Assistive Technology must be left blank • Human Read-Aloud as a Standard/Special Access Accommodation must be left blank • Human Signer as a Standard/Special Access Accommodation must be left blank • Text-to-Speech must be left blank • Web Extension must be left blank • Spanish Edition must be left blank 	<p>Y = Yes Blank</p>

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
Y	Human Read Aloud as a Standard Accommodation (Mathematics)	N	1	<p>For CBT or PBT</p> <p>Standard Accommodation</p> <p>Test administrator reads aloud a test to a student with a disability.</p> <p>Human Read-Aloud in Spanish. Test administrator reads aloud the Mathematics test to an English Learner in Spanish. The test administrator must be fluent in reading, writing, and speaking Spanish.</p> <p>Note: Students requiring a human reader for the computer-based test must be placed in a separate human read-aloud Session in PAN. This ensures that all students are assigned the same test form and provides the test administrator with a TestNav testing ticket to log in and read the test on a separate computer. To set up a human read-aloud Session in PAN, follow the steps below:</p> <ol style="list-style-type: none"> 1. Find and select the appropriate session in PAN. 2. Select the Create/Edit Sessions task. 3. Next, select the Proctor Reads Aloud checkbox. 4. Select Human Read-Aloud (or Human Read Aloud Spanish) from the Form Group Type menu. 	<p>If expected value equals “Y,” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Screen Reader Edition must be left blank • Compatible Assistive Technology must be left blank • Braille Test Edition must be left blank • Human Read-Aloud as a Special Access Accommodation must be left blank • Human Signer as a Standard/Special Access Accommodation must be left blank • Text-to-Speech must be left blank • Math tests only 	Y = Yes Blank

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
Z	Human Read Aloud as a Special Access Accommodation (ELA)	N	1	<p>For CBT or PBT</p> <p>Special Access Accommodation</p> <p>Test administrator reads aloud a test to a student with a disability.</p> <p>Note: Students requiring a computer-based read aloud test must be placed in a separate human read aloud session in PAN. This ensures that all students are assigned the same test form and provides the test administrator a TestNav testing ticket to log in and read the test on a separate computer. To set up human read aloud:</p> <ol style="list-style-type: none"> 1. Find and select the appropriate session in PAN. 2. Select the Create/Edit Sessions task. 3. Next, select the Proctor Reads Aloud checkbox. 4. Select Human Read Aloud from the Form Group Type menu. 	<p>If expected value equals “Y,” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Screen Reader Edition must be left blank • Compatible Assistive Technology must be left blank • Braille Test Edition must be left blank • Human Read-Aloud as a Standard Accommodation must be left blank • Human Signer as a Standard/Special Access Accommodation must be left blank • Text-to-Speech must be left blank • Spanish Edition must be left blank • ELA tests only <p>For guidelines on which students may receive this special access accommodation, review the RISAP Accommodations and Accessibility Features Manual.</p>	Y = Yes Blank

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
AA	Human Signer as a Standard Accommodation (Mathematics and ELA)	N	1	<p>For CBT or PBT</p> <p>Standard Accommodation</p> <p>Test administrator signs a test (CBT or PBT) to a student who is Deaf or Hard-of hearing. No more than five students may be tested in a group.</p> <p>Note: Mathematics and ELA test questions and response options only. For human signer for ELA reading passages, see column AB.</p> <p>Note: Students requiring a human signer on a computer-based test must be placed in a separate human signer Session in PAN. This ensures that all students are assigned the same test form and provides the test administrator a TestNav testing ticket to log in and sign the test using a separate computer. To set up a human signer Session in PAN, follow the steps below:</p> <ol style="list-style-type: none"> 1. Find and select the appropriate session in PAN. 2. Select the Create/Edit Sessions task. 3. Next, select the Proctor Reads Aloud checkbox. 4. Select Human Signer from the Form Group Type menu. 	<p>If expected value equals “Y,” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Screen Reader Edition must be left blank • Compatible Assistive Technology must be left blank • Braille Test Edition must be left blank • Human Read-Aloud as a Standard/Special Access Accommodation must be left blank • Human Signer as a Special Access Accommodation must be left blank • Text-to-Speech must be left blank 	Y = Yes Blank

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Field Notes and Validations	Expected Values
AB	Human Signer as a Special Access Accommodation (ELA)	N	1	<p>For CBT or PBT</p> <p>Special Access Accommodation</p> <p>Test administrator signs a test (CBT or PBT) to a student who is Deaf or Hard of-hearing. No more than five students may be tested in a group.</p> <p>Note: ELA reading passages only. For human signer for mathematics and ELA items and response options, see column AA.</p> <p>Note: Students requiring a human signer on a computer-based test must be placed in a separate human signer Session in PAN. This ensures that all students are assigned the same test form and provides the test administrator a TestNav testing ticket to log in and sign the test using a separate computer. To set up a human signer Session in PAN, follow the steps below:</p> <ol style="list-style-type: none"> 1. Find and select the appropriate session in PAN. 2. Select the Create/Edit Sessions task. 3. Next, select the Proctor Reads Aloud checkbox. 4. Select Human Signer from the Form Group Type menu. 	<p>If expected value equals “Y,” then the following criteria must be met, or the record will cause an error message to appear:</p> <ul style="list-style-type: none"> • Screen Reader Edition must be left blank • Compatible Assistive Technology must be left blank • Braille Test Edition must be left blank • Human Read-Aloud as a Standard/Special Access Accommodation must be left blank • Human Signer as a Standard Accommodation must be left blank • Text-to-Speech must be left blank • Spanish Edition must be left blank • ELA tests only <p>For guidelines on which students may receive this special access accommodation, review the RISAP Accommodations and Accessibility Features Manual.</p>	Y = Yes Blank

Common errors to avoid when completing the SR/PNP

Below are common errors that can occur during the Student Registration/Personal Needs Profile (SR/PNP) import process, as well as solutions to correct them. Contact the RICAS Service Center at ricasservicecenter@cognia.org or 855-222-8936 with any questions on the SR/PNP process.

Error message	Cause	Solution
<p>Incorrect number of fields found on line 2, expected: 53 actual: 11</p>	<p>This error message appears when selecting a User Import rather than a Student Registration Import in PAN.</p> <p>This error message indicates that the file being imported contained more columns than expected. PAN has 53 columns in the Student Registration file. (In this example, PAN expected 11 columns for a User Import.)</p>	<p>The file needs to be re-imported with the correct import type (Student Registration Import).</p> 

Error message	Cause	Solution
No error message, but the file is not uploaded correctly	Typically, this occurs when a user imports a file that was saved in the wrong format.	<p>Users should verify that the file is saved in the .CSV format. PAN will not import files saved as .xlsx or .txt.</p>  <p>The screenshot shows a 'Save As' dialog box with the path 'Desktop > MCAS > Student Registration Import - 2021-2022'. The file name is 'SR-PNP_Spring_G3-8'. The file type dropdown is set to 'Excel Workbook (*.xlsx)'. A list of file formats is shown, with 'CSV (Comma delimited) (*.csv)' highlighted in blue and enclosed in a red rectangular box. Other visible formats include Excel Workbook, Excel Macro-Enabled Workbook, Excel Binary Workbook, Excel 97-2003 Workbook, CSV UTF-8 (Comma delimited), XML Data, Single File Web Page, Web Page, Excel Template, Excel Macro-Enabled Template, Excel 97-2003 Template, Text (Tab delimited), Unicode Text, XML Spreadsheet 2003, Microsoft Excel 5.0/5.2 Workbook, Formatted Text (Space delimited) (RTF), Text (Macintosh), Text (MS-DOS), CSV (Macintosh), CSV (MS-DOS), DIF (Data Interchange Format), SYLK (Symbolic Link), Excel Add-in, Excel 97-2003 Add-in, PDF, XPS Document, Strict Open XML Spreadsheet, and OpenDocument Spreadsheet.</p>
Incorrect number of fields found on line 2, expected: 53 actual: 45	<p>This error message appears when using the SR/PNP file layout and field definitions from a previous administration.</p> <p>This error message indicates that the file being imported contained fewer columns than expected. PAN expects 53 columns in the 2020–2021 Student Registration file. (In this example, the file contained 45 columns.)</p>	<p>The file needs to be updated using the 2020–2021 Student Registration layout. Once the file is prepared, it should be re-imported into PAN.</p>
Human Read Aloud as a Special Access Accommodation is not valid when “testcode” is for a Mathematics test.	Several accommodations are available for only one subject area test (e.g., available for ELA but not for Mathematics). An error message will appear if an accommodation is not available for the selected test.	Refer to the RISAP Accommodations and Accessibility Features Manual to determine if the accommodation in question is available for the subject area test that was selected.
