Updates to PAN

ADD/REMOVE STUDENTS

Users can now have more students available to work with in the drop-down menu in the Add/Remove Students in Sessions page.

DELETING/RESTORING PAN USER ACCOUNTS

Test coordinators can now delete and restore PAN user accounts using a file import. See the <u>Guide to Managing Users in</u> <u>PearsonAccess^{next}</u> for details on using this new functionality.

This excerpt of an export file example shows columns that were added to indicate why a student test has been disabled and if the test has been deleted.

TEST SESSION MONITORING

Test coordinators and test administrators can now view the Student Status Dashboard for larger PAN Sessions that have up to 100 students.

Users can select the up arrow that is located above the test session on the Students in Sessions page (shown below) to view the Student Status Dashboard

DASHBOARDS

The PAN Session Status by Subject dashboard now contains a hyperlink to detailed information in PAN. See further information on dashboards in the <u>PAN Dashboards Module</u>

Dashboards will now refresh every 10 minutes for more effective monitoring.

Session Status by Subject: When a user selects a particular status in this graph, they will be taken to the Sessions page, which will display all PAN Sessions with that status

Student Test Status by Subject Dashboard: When a user selects a particular status, they will be taken to the Students in Sessions page, which will display all of the students with that status.

日田日

Test Status – Online by Subject: When a user selects a particular status, they will be taken to the Student Tests page, which will display all of the student tests with that status.

Example: When a user selects the "In Progress" section of the graph, shown in a red box on the left, they will be taken to the **Student Tests** page, which will display all of the student tests that are in progress.

PRINTING TESTING TICKETS

Test coordinators can print student testing tickets for multiple PAN Sessions at one time. When tickets are printed, each session will be sorted by a leading header page labeled by PAN Session name followed by tickets for that Session.

In PAN, click on Testing and then Sessions. Then, search for and select all the PAN Sessions for which you want to print student testing tickets.

Under Select Tasks, select Generate Test Tickets.

When generating test tickets (especially when generating multiple test tickets for one student) page numbering and session name will appear in the footer.

LOCKING AND UNLOCKING TESTS

Users will no longer need to access the dropdown menu to lock or unlock a student test, the button will now be outside of the dropdown allowing for quicker and more efficient access. Additionally, once a unit is locked, the action will force lock an unlocked unit for that student.

STUDENT SEARCH ENHANCEMENT

SASID when

now search by student name of using the student search box

While searching a session, users can now go directly to the students in that session from that screen.
